Wall Street Hears That Administration Will Alter Its Hostile Attitude.

Attitude.

NEW YORK, June 6.—The transactions which carried prices of stocks up ards in to-day's market were limited in amount, and were believed to be from professional squrees almost entirely. Evidently the professionals find the best inspiration for price movements in rumors from Washington regarding the Intended polley of the nathorities towards corporations. To-day's rise was due in large part to the positive assertions contained in Washington advices that a determination had been reached after consultation had been reached after consultation had been reached after consultation amongst members of the administration to refrain from an actual pursuit of the Harriman ratirond combination because of a fear that the general situation might be imperilled by such a course. This was the same report that emanated from Washington Tuesday, with the effect of putting up prices. The retirements from the Chicago and Alton directorate of a friend of the Harriman interest and the present control of the Alton. This is used to be the present control of the Alton. This is discussion of the Salmostory as a rule, the heavy additions to Southern Pacific's operating expenses for April having a special expenses for April of all railroads thin far exporting shows a percentage of more than 30 compared with last year, The declaration of the regular quarterly dividend on Interborough-Metropolitan preferred some fears of the passing of the dividend and the New York Utilities moved upwards despite the final act in the concurrence of the public utilities law at Albany.

Purther outgo of gold by Saturday's steamers was accepted as a certainty When the traders came to attempt to take profits prices yielded rather easily, is their own buying had been principally responsible for sending prices up. The close was heavy.

COTTON MARKETS.

NEW YORK, June 6.—The cotton market was active and excited at the opening but quieted down later with prices easing off and closing barely steady at a net decline of 46% points. Sales were estimated at 550,000 baies. The opining was firm at an advance of 76% points on covering by yesterday's sellers for a turn and heavy overlight buying orders. Cables were away above expectations and added to the early excitement, but the weather map failed to show the heavy rains reported by private wires from the Southwest yesterday, and the market began to case off soon after the call under heavy realizing and selling for a turn. Private crop reports continued buillsh, but were far less numerous than on the provious day, and while there was a rally of several points in the early afternoon on a renewal of covering and bull support the market broke sharply in the last hour under heavy active selling by some of the prominent local traders and renewed liquidation. The close was at practically the lowest point of the day. The initial advance carried the new months to a new high record for the bull movement, but July closed 24 points off from the best point. The weather may showed scattering but generally light precipitation, and the heavy next her may showed scattering but generally light precipitation, and the heaver accidence of the best, but weather in the West. Temperatures were seasonable. Southern spot markets were unchanged to %c. higher.

Receipts at the ports to-day were 3.384 hales against 8,787 last week and 6,011 last year. For the week 35,000 bales against

DELAYS DEATH SENTENCE
ON PLIPA OF YOUNG SON.
COLUMBUS, OHIO, June 6.—An appeal to Governor Harris by Dean Cornelius, the eleven-year-old son of James Cornelius, of Canton, was followed this afternoon by the postponement of the first degree. Cornelius was to have been electrocuted to-night at midnight. The boy was brought here by his uncle and State Senator Vanover. The Governor later granted a respite to the condemned man until June 21st. Cornelius was convicted of wife murder. It is claimed by his friends that he was crazed by liquor when he committed the crime, and therefore is not guilty of murder in the first degree. The Governor will investigate this claim.

Mr. L. E. Chalenor, assistant general reight agent of the Seaboard Air Line, was in the city on business yesterday. He reports the outlook for business for the summer good, although the backward spring has retarded the oper-ations of farmers along his line not a little.

The Southern Railway will resume its Sunday outing trains to Beach Park, West Point, next Sunday, Two trains will leave here that day and on every Sunday following. The first is scheduled to depart at 10 A. M. and the second at 4 P. M. These will be the regular fifty-cent runs so popular last year.

The "Evening Twilights" will begin on Monday and be kept up all summer. The "Twilights" will leave the Fourteenth Street depot daily, except Sunday, at 5:30 P. M., returning, they will leave West Point at 10 A. M. The fifty-cent rate will prevail on the "Twilights" also.

Examiners.

The entire session of the Hustings Court was consumed yesterday in taking testimony in the case of the Commonwealth vs. C. H. Rudd and J. W. Buchanan, charged with practicing medicine without having first passed the examination by the State Board of Medical Examiners, as required by statute. The case is a test one, the issue being whether or net the two defendants are practicing medicine within the meaning of the statute in their vocation as neurologists. The hearing of testimony was concluded, and the court at 3 P. M. adjourned until today, when argument will be had on the instructions, and then the case will be argued on its merits and submitted to the jury. This is the first case of its class arising in Virginia, and it is regarded as important that the liability of the neurologist to examination for the practice of medicine and surfary boudicially determined. The Commonwealth's Attorney Minerces Folkes, by Hon, J. Murray Hooker, of Stuart, Va., special attorney for the State Board of Medical Examiners; and for the defendant, Mesers, O'Flaherty & Fulton and George J. Harper, of this city, are counsel.

The defendants pleaded "not guilty" to the indictments against them, and the Introduction of testimony was begun and continued until adjourned, when both sides rested. The Commonwealth introduced Dr. Rawley W. Martin, of Lynchburg, president of the State Board of Medical Examiners, and Dr. George Ben Johnston, a well-known physician and surgeon, of this city; Drs. Rudd and Buchanan several persons, who had been patrons or patients of the neurologists. The patients testified to baving, received treatment for diseases of the optic nerves, but that they had taken no medicine.

The defense denied that the defendants practiced medicine and that there was any occasion to pass an examination, inasmuch as they administered no medicine. Witnesses were introduced to show this, and the Commonwealth introduced none to controvert this position.

The argument on instructions to-day will have an important bearing on this very interesting case. In the general argument decisions by the courts of other States will be adduced, pro and contra, and the nature of the profession will be gone into in technical detail.

The result of the case, which will become known probably to-night, is awaited with great interest by the medical profession. It will be recalled that a similar case involving the liability of esteopaths to examination was made by the courts some years
